

Enterprise Therapy Center

February 28, 2006

Dear AquaMED,

AquaMED has done very well for my business. It has been very effective in treating my patients; all those who get on it-love it! I mainly use the AquaMED to treat lower back pain, cervical pain and thoracic pain. However, I have also used the AquaMED when treating diabetic patients suffering from peripheral neuropathy by isolating the lower extremities and increasing the patient's circulation.

The marketing kit that comes along with the AquaMED bed is the best marketing kit I've seen with a piece of equipment I've purchased. I sell the included multiple session punch cards as 5, 20 minute sessions for \$140!

Thank you,

Allen Bryan, PT
