Dear AquaMED,

I just thought you might like to know what your bed has done for me. I've been in a tremendous amount of neck and back pain ever since I sat through a violent plane ride that really jolted me. I couldn't quite put my finger on it afterwards, but I just felt as if my spine just wasn't aligned. I tried so many treatments, from physical therapy, to massage, to pain medications, and nothing worked...that is until I tried the AquaMED bed.

The AquaMED was the very first therapy that actually gave me relief, and I only had to lay on it once to feel the difference. Literally, my head and my back stopped hurting right after using the bed. The even flow of the massage seemed to straighten out whatever was causing pressure and it really felt as though it re-aligned my body. With a massage therapist, you just can't get that consistent, back-and-forth, deep tissue massage. It would be physically impossible.

As good as I felt after using the bed, the real test was the next morning when I woke up. It was the best I had felt in such a long time. I couldn't believe it was the result of a 15 minute treatment on the AquaMED.

If I could use the AquaMED every day, actually twice a day, I would. Words can't express the incredible relief it brought me. If I had to rate the AquaMED on a scale from 1 to 10, I would give it a 20. I can't thank you enough for providing a therapy that actually works for me.

I would absolutely tell anyone with neck pain, back pain, or headaches (actually any pain for that matter) to try the AquaMED. It's an absolute must!

Thank you again,
